

Subject: Teachers Program at the Central Caribbean Marine Institute
PLEASE FORWARD OR POST THE FOLLOWING SUMMER RESEARCH ABROAD OPPORTUNITY FOR
YOUR TEACHERS. Note that we are announcing our college research abroad Teachers
Institute with college credit from Rutgers Institute of Marine and Coastal
Sciences. We are also inviting teachers to bring their students to our
Caribbean
SeaCamp. Thank you.

Explore The Wonders Of Coral Reefs
2005 Teacher's Institute: Research Abroad
July 5-12
At The New Little Cayman Research Centre
College Credit through Rutgers University Institute of Marine and Coastal
Sciences

JOIN in and help researchers in an exploration of the coral reefs on a small
remote island. The Teachers Institute takes you on a trip to discover the
myriad life that populates coral reefs and introduces you to the dynamic
processes that control biodiversity.Imagine the turquoise sea as your
backyard for a week of paradise while you:

EARN college credit
ASSIST with important reef research
LEARN the essentials of how the coral reef system works
UNDERSTAND why some marine conservation efforts work and why others may not
EXPLORE the biodiversity of a remote island
DEVELOP lesson plans for your students

REGISTER ONLINE: <http://ReefResearch.org>
Email: info@reefresearch.org

CONTACT US if you are interested in bringing your own students to our
Caribbean
SeaCamp 2005 (July 12—19) and stay for free.
Central Caribbean Marine Institute is an international NGO with non profit
status in the US, UK, and Cayman Islands. Our mission is to sustain and
improve
biodiversity through research and education.
