

# NATURE JOURNAL

## COURSE

3 G CREDIT

WHERE:

FT. WADSWORTH, STATEN ISLAND

(Most session will be here or other places in SI)

FT. TILDEN/BREEZY POINT

FLOYD BENNETT/BROOKLYN

ANNUAL HORSESHOE CRAB ARRIVAL, PLUMB BEACH/BROOKLYN

ONE CLASS IN MANHATTAN(TENTATIVE)

TO REGISTER: [www.nyasdp.org](http://www.nyasdp.org)

Listed in catalog under science. G17-121S05

This interdisciplinary activity engages students in the natural world around them. Through a variety of art and writing exercises teachers will learn how to involve their students in keeping Nature Journals. Visits to a variety of sites around NYC will introduce teachers to the amazing natural resources of our city. Teachers will be required to keep their own journals while working with journals in their own classes. Walking will be necessary in most sessions in variety of terrains. This class has been effective for K through HS teachers in all subject areas.

Because of the limited number of sessions, there are no absences.
