To remain open until filled. EOE D/V/M/F

8. Sanctuary.Education@willamette.nos.noaa.gov is a closed list server that allows for efficient communication and provides an avenue in which there is an established communication path between America's teachers and National Marine Sanctuary Program Education Coordinators.

If someone would like to be added or removed to the [Sanctuary.Education](mailto:Sanctuary.Education@willamette.nos.noaa.gov) list server, please contact the List Administrator, Claire Johnson via email at claire.johnson@noaa.gov. It is essential that we do not abuse this list server and use it for primary means of disseminating pertinent information about NOAA and National Marine Sanctuary education opportunities and other related information.

9. We are looking for an energetic educator to work with us in Florida. The position will be in Panama City and focus on fishery issues. 5033 Brookdale Circle Fairfield, CA 94534

ph 707-863-9471 lapalisi@aol.com

15. **JASON Expedition: Disappearing Wetlands 2005**

Easy classroom integration-Order today for Early Bird Savings!

JASON is going Cajun! One of our world's unique ecosystems is threatened! Work with REAL scientists in the Louisiana Bayou doing REAL research that applies to your neighborhood. JASON's standards-based, multimedia journey provides lessons, articles, video, LIVE interaction with scientists, HANDS-ON activities that increase

scientific content knowledge and inquiry skills, and MORE! Multi-year content licensing is available. Enhance your wetlands Expedition experience and join JASON for a Summer Institute in southern Louisiana in July. **Register today - space is limited! Call 888.527.6600 to speak with a JASON representative about bringing JASON to your school or district. Participate locally in JASON expedition-based curriculum or professional learning, visit <http://www.jason.org/sites>.**

16. INTERNATIONAL LEADERSHIP INSTITUTE FOR BIODIVERSITY EDUCATION APPLICATIONS DUE JUNE 11, 2004

World Wildlife Fund and Disney's Animal Kingdom are looking for 40 leaders to participate in "The International Leadership Institute for Biodiversity Education " to be held at the Walt Disney World Resort in Orlando Florida, October 11-16, 2004. The goal of this institute is to provide the tools to enable participants to lead, engage, and inspire others to protect biodiversity. Additional funds may be available to support registration fees and travel for pre-service educators and those who work with pre-service educators. Please indicate your interest in these funds and your role in pre-service when you submit your application. There is no cost for educational materials and housing during the institute. Complete information about the institute and an application form can be found at www.worldwildlife.org/windows/institute.cfm.

17. The Hudson River Sloop Clearwater received a grant from the EPA to give teacher training to New York City teachers, grades Kg to 12. The training will take place on July 14, 15 and 16 at Pier 40 in Manhattan. The first day will be on estuaries and Hudson River essentials, the 15th will be a five hour sail on the Clearwater, and the last day will be environmental issues and ethics. Please call Linda Richards at Clearwater, 845-454-7673, extension 115 and leave your name and phone number. She will get back to you. You can also email me your info. This is a special and exciting program chock full of information and standard based materials.

18. MARE is a supplemental, whole-school program that capitalizes on students' natural fascination with the ocean to effectively promote hands-on learning and basic skills across a variety of subjects. The MARE program has been successfully improving education in science, math, language arts, social studies, art, and physical education at over 40 inland and coastal schools and districts throughout New Jersey since 1996. Join other motivated K-5 educators in search of a creative and challenging learning experience during the 2004 MARE Summer Institute. Activities include hands-on lessons, interactions with ocean scientists and education professionals, and field trips exploring marine habitats. This professional development opportunity addresses the requirements set forth by the No Child Left Behind Act for Highly Qualified Teachers. Visit www.jcnerr.org or contact Eric Simms (732-932-6555 x505 simms@marine.rutgers.edu) for more details.

19. Participants can earn credits to maintain certification and receive laboratory experience to bring back to their classrooms. This is a 4 credit, 4 week, no tuition, laboratory course. -Faculty member and experienced HS teacher to help develop lesson plans and integrate workshop technologies into the HS laboratory Upon successful completion, participants: -receive \$2500 in equipment and supplies -participate in two science Fridays w/their students at the American Museum of Natural History and the Hunter College Dept of Biological Sciences. This project is being given by the Dept. of Biological Science

at Hunter and funded by the Howard Hughes Medical Institute. Please address any questions to Gily Savitch 212 772 5297.

20. The deadline for applying to the Aquatic Teacher Workshop at the Bruce Museum in Greenwich, CT has been extended to June 11, 2004. For details on the workshop please visit our website.

http://www.brucemuseum.org/education/teachers_summer.php

21. EPA President's Environmental Youth Awards (PEYA)

Deadline: July 31, 2004 President's Environmental Youth Awards

(PEYA) recognizes young people across America for projects that demonstrate their commitment to the environment. K-12 student or students, sponsored by an adult, submit evidence of a completed project as defined in the application (and application) to their local EPA regional office by July 31, 2004.

<http://www.epa.gov/enviroed/pdf/peyaapp.pdf>

22. NFWF Nature of Learning Grants Program

Deadline: June 28, 2004 National Wildlife Refuge System's new community-based environmental education initiative. Grants of up to \$5,000 will be awarded on a competitive basis to support start-up expenses associated with new programs. In addition, grants of up to \$3,000 will be awarded on a competitive basis to provide continued support to existing Nature of Learning programs.
