

## **Global Warming Community Event, Communicating Climate Change**

The New York Aquarium is collaborating with Sea Studios Foundation and Yale University on a study to identify the best ways to engage people in discussing pressing environmental concerns. You're invited to join us to see a short film about climate change, *Strange Days on Planet Earth: The One Degree Factor*, and learn more about how we can make a difference. By taking part in this study, you'll give us important feedback that we can use to engage others in critical environmental topics.

The event will take place at the New York Aquarium. The sessions start at 10:00 am and are staggered throughout the day, so you can choose the one that works for you. To learn more about the event and to reserve your place, please contact Bob Cummings at 718-265-3448, email address, [rcummings@wcs.org](mailto:rcummings@wcs.org).

### Participants Receive:

- Free parking
- Free Aquarium admission for participating adults only (18 yrs. and older)
- Copies of the film and other free gifts.

Place: New York Aquarium  
Date: Saturday, March 3, 2007  
Time: Sessions start at 10:00am, 11:50am, 12:55pm, 2:45pm and 4:35pm.  
Contact: Bob Cummings, phone: 718-265-3448, email: [rcummings@wcs.org](mailto:rcummings@wcs.org)

Register in advance to reserve your place. Space is limited!
