

NYSMEA's ANNUAL FIELD EXCURSION and COURSE
In NOVEMBER we're going to the all-inclusive Akumal Beach Resort
near CANCUN, Mexico

Sunday, November 7 - Sunday, November 14, 2004

We're going to a new and different all-inclusive resort on secluded Akumal Bay offering peaceful surroundings and exquisite coral reefs long after the hurricane season. The Travel Channel called it one of the ten best beaches in the world. Here in the Mayan Riviera, one finds an oasis of nature and pleasure for you to enjoy. This is a magnificent tropical resort with a kilometer of white sandy beach, a protected coral reef 200 feet out that is within swimming distance. And because everything is included from meals and beverages at its three restaurants, snack bar, plus nightly entertainment and daily recreation, all you have to do is relax and enjoy. It's centrally located with easy access to Xel-Ha (we expect to go here one day as a group), Xcaret, Tulum, cenotes and golf courses.

The 4-star resort has 231 units in two & four story buildings, all with balcony or patio. We've reserved ocean-front Superior Rooms (a fabulous view) with a king-size bed or two doubles. Included are A/C and ceiling fan, direct telephone, satellite TV, private bathroom w/shower and hair dryer.

INCLUDED: All meals, unlimited drinks, wine with meals, unlimited use of all facilities and sports equipment including: kayaking, tennis (with night-lighting), beach and pool volley ball, water sports clinic, daily games and activities, nightly entertainment, sweetwater pool, outdoor jacuzzi, enclosed theater. *All tips, taxes. Coach transfers from plane to resort for the 1 1/4 hour trip.*

OPTIONAL: tours to local areas and Cancun, safe deposit boxes at front desk, 24 hour medical service on site, laundry services. Padi dive certification is available. Snorkel equipment (good idea to bring your own); diving equipment plus additional services are also available.

AIR: All seats we have previously reserved are filled. However, there still may be seats available. This flight leaves from Newark.
